

**NEW!**

# BACKCOUNTRY EXCLUSIVE

## Features

- Spectacular helicopter flight
- Hike
- Alpine views
- Riverside and forest walk
- Genuine high country farm experience
- Overnight stay

## Overview

This is a two day excursion perfect for the whole family, exploring part of our southern wilderness with an overnight camp at Liethan Valley, a working sheep, beef and deer ranch. Get an insider's look at New Zealand country life; meet real New Zealanders.

You will be met by your Pure Adventure guide the evening before your journey to chat about the days ahead and take care of any last minute details regarding diet and clothing.

## Day One

Your Pure Adventure guide will meet you. Take a stunning scenic helicopter flight along the Remarkable Mountains and over the high table mountains of the Garvie and Old Man Ranges. Land at Blue Lake Hut on Glenarary Station one of the largest privately owned stations in the south.

Enjoy a short walk in this pristine high alpine environment. Then heli-hop to the aptly named Titan Rocks before descending to the valley. Your 4WD awaits to take you to meet a local farmer. Get as hands-on as you want; try to draft the sheep.

# BACKCOUNTRY EXCLUSIVE...

## Day 1 cont...

Then head off into a forgotten beech forest (Piano Flat), cross a swing bridge and walk along the riverside through the trees. Time will dictate our turning point. Visit a strange bottle house. If you desire join some local families at the river to cool off.

In the evening enjoy a Kiwi style barbeque in the outdoors around an open fire with your hosts, the owners of this high country ranch.

Your accommodation for the tonight is in a comfortable lodge on the property, with wonderful views from your room.

## Day Two

After a hearty breakfast at 9am take a drive or a walk around the farm, see how a working outback station operates and get a feeling for life on the land.

Enjoy a farmer's lunch before leaving. We make our way homewards exploring some back roads through the countryside with time to enjoy the changing scenery.

Now wind the clock back a century for a trip on a vintage steam train — The Kingston Flyer. The kids will love it!
