

NATURE WALK & FARM

Features

- Nature walks
- Hands-on farm experience
- Meet the locals

We start the day early to maximise your time in the outdoors.

Your Pure Adventure guide will collect you at a pre-arranged hour for a scenic drive along the shores of Lake Wakatipu to Glenorchy, a small township at the head of the lake.

Here we explore the surroundings. Encircled by mountains, walk with your guide through moss-draped beech forest, where the only sound is birdsong or the trickle of a mountain stream, on to river flats with towering peaks and waterfalls all around.

We then visit a high country sheep station for a hands-on experience of farming life. Meet the local shearer. Feed the lambs (in spring and early summer), learn all about (and try) shearing, drafting, how to throw a fleece and work a sheepdog. Feel the passion these country people have for their land.

On the return journey there is a choice of beautiful bushwalks along the way. Whether you feel like a leisurely stroll or an energetic hike, you will be surrounded by nature at its loveliest.
